

## INSTRUCTIONAL GOALS AND OBJECTIVES

A. Generally

The Patrick County school division is committed to excellence in education, equality of educational opportunity, and the recognition of each student's individuality. Inasmuch as students differ in their rate of physical, mental, emotional and social growth and vary in their needs and abilities, learning opportunities shall be provided that are consistent with personal development and potential. Programs shall emphasize diagnostic and prescriptive instruction, allowing an individual approach to each student's learning style and educational needs.

The educational program shall introduce each student to a variety of interests and areas that offer exposure to the range of opportunities available in later years. These experiences produce the basis for further education and future employment. As students demonstrate increased maturity, they may assume more responsibility for the decisions regarding their education.

The school environment should be responsive and conducive to learning. The physical environment facilitates and enhances the learning experiences available to each student. A responsive environment includes competent, dedicated teachers using a variety of techniques and a classroom atmosphere where students can function and develop according to their abilities. Safety, physical comfort, and appearance also are vital environmental components.
